

Stratas Advisors Will Launch Global Offshore Projects Service at Houston’s Offshore Technology Conference

Live Demos at OTC in Booth #3217

Houston, TX (April 27, 2016) – Experts from **Stratas Advisors** will host live demonstrations of the company’s new **Global Offshore Projects Service** at the Offshore Technology Conference on **May 2-5, 2016**. Attendees can stop by **booth #3217** at Houston’s NRG Center. Seats can be reserved for the demonstrations by **registering online**.

The **Global Offshore Projects Service** provides worldwide coverage of 250+ offshore projects, with a focus on recent and future developments. The web-based application includes multiple economic measures throughout the project lifecycle, analysis of publicly announced E&P projects, and detailed fiscal models by country. The transparent modeling shows calculations, adjusts the assumptions as desired, and analyzes the results.

The amount of investment required for global offshore projects makes for high risks. Stratas Advisors’ valuable resource enables industry professionals to make more informed business decisions.

“Our Global Offshore Projects service gives a quick view of the key offshore projects around the world vying for discretionary capital budgets,” said **Paul Morgan, Executive Director – Upstream, Stratas Advisors**. “It’s a key resource to help companies get a granular and ‘big-picture’ understanding of the competitive offshore landscape.”

Who Benefits from this Service?	How Do They Use It?
Strategy Teams at E&P Companies, including Integrated Oil Companies (IOCs) and National Oil Companies (NOCs)	Eliminate opportunity costs
Financial Analysts at E&P Companies	Use scalable, comparative data to make optimum business decisions
Business Development Managers at E&P Companies	Accurately evaluate the economics of potential projects
Senior Management Teams at E&P Companies	Compare planned projects to completed projects in the same field
Executives and Analysts at Oilfield Service Companies	Understand expected offshore drilling activity and who is spending money where
Executives and Analysts at Engineering, Procurement & Construction (EPC) Companies	Get a view toward expected capital spending on different types of fixed and floating platforms and vessels

Executives and Analysts at Institutional Financial Service Firms

Analyze the relative exposure that different companies have in the offshore markets

Available for Interviews

Stratas Advisors experts are **available to answer questions** and can offer insights to the energy industry. For interview opportunities, please contact media@stratasadvisors.com.

Paul Morgan, CFA - Executive Director, Upstream

Paul Morgan has 20 years of experience providing insight into the economics across all oil and gas sectors with the last decade focused on the upstream sector. He has served as the senior economist for the upstream divisions of consulting firms and built practical insights by working at BHP Billiton in the exploration/new ventures group. He oversees Stratas Advisors' upstream practice, including the [North American Shale](#), [Global Shale](#), [Global Hydrocarbon Supply](#) and [Global Heavy Crude Oil](#) services. In addition to being a Chartered Financial Analyst, Paul earned his Bachelor in Finance at the University of Texas and his MBA in International Finance from Thunderbird, American Graduate School of International Management.

Shuqiang Feng - Director, Upstream

Shuqiang Feng has more than 15 years of experience in oil and gas industry specializing in upstream oil and gas field development and the oilfield service market. He focuses on modeling and analyzing country-level oil and gas production supply by managing [Global Hydrocarbon Supply](#) service, and maintaining a global upstream project database, which includes onshore/offshore field construction, a field development life-cycle timeline, field development spending assessment, field production forecasting and project economic valuation, etc. He holds a M.Sc. in Petroleum Mechanical Engineering from University of Petroleum, China and an M.B.A in Finance from Tulane University.

About Stratas Advisors

Stratas Advisors is a global consulting and advisory firm covering the full spectrum of the energy market — upstream, midstream and downstream — and related sectors, such as automotive, transportation, power, petrochemicals and heavy industries. The company also evaluates and assesses the impact of macro-level drivers including geopolitics, macro-economics and energy policies. Experienced Stratas analysts and consultants provide data, analysis and strategic insights to leading businesses, governments and institutions to identify, understand and monitor key drivers that shape future developments. This forward-looking perspective helps clients leverage opportunities, mitigate risks and implement strategies. Stratas Advisors, a Hart Energy company, is based in Houston, Texas and has offices in Brussels and Singapore. For information, visit StratasAdvisors.com.
